**Oobleck**

**Ingredients**
- 2 parts cornstarch
- 1 part water
- food coloring (your choice of color!)

**Tools Needed**
- measuring cups
- plastic bowl
- spoon
- your hands

**Procedure**
Put the cornstarch and water together in a bowl
Add a few drops of food coloring
Mix everything together and play!

*Please note*
Oobleck should not be put down the sink after use. It will clog your drain!

**Ages**
This activity is great for Pre-K and younger! Adult supervision is required.
INGREDIENTS
- 1/2 cup of liquid starch (found wherever laundry detergent is sold)
- 1/2 cup of white glue
- food coloring (your choice of color!)

TOOLS NEEDED
- measuring cups
- plastic bowl
- spoon
- your hands

PROCEDURE
Pour 1/2 cup of liquid starch into the bowl
Add 3-4 drops of food coloring to the bowl. Stir well with a spoon.
Adjust the color if needed
Add 1/2 cup of white glue to the bowl
Stir well (and carefully) with the spoon until everything is mixed together
Let the mixture rest for about 5 minutes
Knead the mixture together with your hands

AGES
This activity is geared for children ages 3 and up. Adult supervision required.

A long-stranded glob will appear in your hands:

SLIME!
**FLUFFY SLIME**

**INGREDIENTS**
- 2/3 cup Elmer's white glue
- 1/2 teaspoon baking soda
- 1/4 cup water
- 2-3 cups shaving cream
- 1.5 tablespoons contact lens solution (must contain boric acid)
- food coloring

**TOOLS NEEDED**
- measuring cups
- plastic bowl
- spoon
- your hands 🧼

**PROCEDURE**
Mix together white glue, water, and baking soda in a bowl.
Add shaving cream and mix.
Add food coloring and mix.
Add in your contact lens solution a little at a time, mixing thoroughly until it stops sticking to your hands.

Play!

**AGES**
All ages!
Adult supervision is required.
